

EcoAire

Breathe Easy

The EcoAire air care system uses passive technology, that is effectively distributed through natural air flow. The special slatted design allows for optimum air movement around the refill without the use of aerosols or propellants.

Why Implement an Air Care System?

Smell Matters

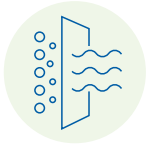

Research shows that washroom users will evaluate the cleanliness of your washroom with smell, before sight.

Create a Positive Experience

Washrooms are small, but make a big impression. Ensure your visitors have a good user experience and positive association with your business.

Reliable, Hassle-Free Service

Our Hygiene Technicians ensure that your washroom users are cared for, with on-time, reliable refill services.

Product Overview

Continuous Odour Control

- ✓ Continuous odour control 24 hours a day creating a pleasant washroom environment
- ✓ Targets malodours at the molecular level leaving behind a fresh, clean scent
- ✓ A non-aerosol, multi-phasing technology neutralises malodours
- ✓ No batteries, VOC free, all natural, recyclable
- ✓ The EcoAire air freshener has recently been Carbon Footprint assessed and approved and is now even carbon neutral

CO₂e Assessed Product

Carbon Neutral Product

How Does It Work?

Passive technology is evolving with EcoAire as it continually releases an odour neutralizing formula into the washroom environment.

The recyclable cartridge with an organic core derived from seaweed, multi-phasing air freshener technology and sub-micron fragrances, allow for a superior scenting experience.

When serviced on a predetermined schedule by our expert technicians, it manages odours effectively and continuously.
